

# Facility Visual Management

## What is Facility Visual Management?

Visual management is the way of easy and fast communication by means of colours, images, and minimal text. PQSmitra promotes visual management across industry and business units for better business performance.

Visual management can create a great awareness on Quality, Safety and Productivity in manufacturing and other business processes. It is noted that

- Visual memory is 60,000 times faster than auditory memory.
- 65% population is visual learners.

The correct and effective displays create a mistake-proof environment to promote effortless adherence to the standards. It quantifies the path to targets for success.

It is observed that many of the organizations are willing to display visual boards including identification boards, safety signs, policies & instructions, display posters, compliance boards, informative boards, evacuation plans etc. at their factories. Such displays are effective only if the selection and location of the display is appropriate.

## What are the Benefits of Visual Management?

- Better presentation to customers and visitors
- Supports approval of the facility by the customer
- Enhanced awareness on Quality, Productivity and Safety
- Inspiring work culture
- Time saving and less fatigue
- Enhanced morale of the team members
