What is MSIL – Green VSA Audit ?

Maruti Suzuki India Ltd (MSIL) formerly known as Maruti Udyog Limited, is an automobile manufacturer in India and it is a subsidiary of the Japanese car and motorcycle manufacturer Suzuki Motor Corporation.

Maruti Suzuki is a manufacturer & seller of cars in India. Gurgaon, Manesar and Gujarat are the three states, where the cars are manufactured. There are multiple vendors, who manufacture components / parts as per the MSIL requirements.

The focus of this audit/assessment is to ensure and maintain consistency in quality of component / part supplied by the vendor and the delivery performance by each supplier in automotive supply chain. In order to have better control over supplier database, MSIL introduced the concept of “Vendor Quality System Assessment – Tier 2”, which ensures the controls on the processes carried out at the vendor’s end.

What are the document requirements for Maruti Green VSA Audit ?

- Quality System Documentation
- Process Control & Documents
- Performance Measurement Records
- Standard Operating Procedures & Work Instructions
- Visual Management Implementation
- Health & Safety Related Requirements
- Legal & Environmental Compliance

Note:

- The above audit criteria is mentioned based on the experience. As it the sole property of Maruti Suzuki India Ltd, the checklist/audit criteria can be modified and revised at any point in time.
- The vendor quality system assessment helps the MSIL to identify and continue the only potential suppliers and the respective supplier gets an opportunity to grow its business with the OEM.

What does one mean by Customer Specific Requirements?

- Customer Specific Requirements are the additional requirements imposed by the customer (Maruti Green VSA Audit Service/ MSIL – Vendor Quality System Assessment) which an organization needs to compulsorily comply with in order to become a verified supplier. In many cases, these requirements are additional to ISO certification.

Is this different from ISO Certification?

- Generally, customer specific requirements are the additional requirements generated over the existing ISO certification to meet certain needs of the customer. This helps the organization gain recognition as a socially compliant organization.

Does my client require me to make changes in my Quality system?
